## EXPERIENCE

### Bally

**September - December 2016**

#### *Freelance front-end web developer*

- Development of emails and seasonal campaign sites across Bally International (Europe, Asia, Americas, Middle East and ROW)

### Arcadia Group

**March 2015 - July 2016**

#### *Freelance front-end web developer*

- Total re-development of customer checkout process (CE3 project) across all Arcadia Brands (UK & international sites) for Topshop, Topman, Miss Selfridge, Dorothy Perkins, Evans, Wallis & Burton. I led the team for some phases of this project.
- Development of product listing and detail pages, new features such as Quick View, Colour swatching and Wishlist functionality.
- Business as usual development work across all Arcadia Group websites.

### Virgin Media

**January 2012 - August 2013**

#### *User interface developer*

- Part of development team involved in refactoring code and converting all Virgin Media sites into responsive device-agnostic websites

- Development of new campaign microsites including David Tennant and Usain Bolt campaigns
- Development and launch of Virgin Media Wifi on the Underground website

## **Zone Content**

**January 2012**

### ***Freelance front-end web developer***

- Developed templates (HTML5, CSS2/3 and jQuery) for RNIB Sightline Directory to be integrated with backend  
Emphasis on accessibility (AAA rating) - [www.sightlinedirectory.org.uk/](http://www.sightlinedirectory.org.uk/)

## **Arcadia Group**

**September 2011 - December 2011**

### ***Freelance front-end web developer***

- Development and rollout of international websites for Topshop, Topman, Miss Selfridge, Dorothy Perkins, Wallis, Evans and Burton (50+ sites).
- Site updates and bug fixing across all Arcadia Group websites.

## **Virgin Media**

**December 2009 - August 2011**

### ***User interface developer***

- Web Optimisation Project involving the redesign and redevelopment of the Virgin Media retail website. Create standards-compliant templates using XHTML, CSS2/3 and jQuery.
- Work on various projects across the existing Virgin Media site to improve site functionality and in preparation for the Web Optimisation Project.
- Development and launch of multiple landing pages, promotion pages and microsites

## **Splendid Unlimited**

### ***Front-end web developer***

**June 2007 - December 2009**

- Develop templates for Muse ([www.muse.mu](http://www.muse.mu)) and Agent Provocateur ([www.agentprovocateur.com](http://www.agentprovocateur.com)). Worked extensively with back-end developers to integrate the templates into the CMS
- Other projects include: eBay Partner Network & blog; Muse emails and splash page to announce their upcoming tour.

## **EDUCATION**

### **TAFE NSW - Certificate IV in Web design**

### **University of Sydney, Australia — Bachelor of Science (Information Systems)**
